2018 April 06

- Implemented the Chiller efficiency report.
- Fixed alphabetical listing in groups.
- Fixes in the contiguous overtime requirement.
- Fixed extended overtime (OT) functionality.
- Fixed various issues in metering.
- Fixed meter invoices to only account for daily consumption.

2017 July 20

- Implemented the contiguous overtime rule and the Contiguous Time Difference Custom function.
- Added information about possible overlapping overtimes, allowing other users to list overtimes within the same tenant.
- Added the option for tarball downloads.
- Implemented a tax switch and added the tax column to the group_billing table.
- Implemented a filter for tax on the footer of PDF invoices.
- Reorganized System Settings tabs, added a checkbox to not apply tax to meters, and implemented a filter on the accounting module.

2017 January 17

- Added daily consumption to the meters invoice.
- Improved the meters report.
- Implemented overtime notification via email.
- Improved the maintenance log table and implemented email notification for overtimes.
- Implemented filtering for invoices, so only tenants that had consumption will have linked HTML and PDF documents.
- Performed front-end fixes.

2016 December 15

- Fixed the header title in invoices.
- Ensured reporting or invoicing only occurs on groups that had consumption.
- Increased space for the logo to prevent overlap with the tagline.
- Added nocache headers.
- Fixed issues in invoices and monitor titles related to new OT options.
- Fixed PDF links on accounting reports.
- Fixed MoresBill calculation support for versions 1 and 2 of mores.

2016 October 20

- Implemented carry-over for free amount allowances.
- Added a switch to only display the billing allowance menu option when it is set for the tenant.
- Implemented an extended version of overtimes for CBAS.
- Added the server_id column to the mores table.
- Implemented 'Kill more' and 'Send message' functionality.
- Added a module to log maintenance outages.
- Implemented the contiguous overtime requirement.

2016 October 06

- Fixed issues in group review allowance, dollar amount (bill proposed and restore seconds), and allowance restore.
- Fixed MoresBill used in Reports.
- Updated the MySQL reference database.
- Implemented new customizable function costs in commander_ot.
- Implemented two extra BO functions in Edit Points.
- Added support for two customizable billing options in groups and detached history settings to its own tab in settings.

2016 July 20

- Released CBAS Web major version 14.
